

ZGEN-36 Auto

Effective disinfection solution made on-site

- Simple Installation
- Non-Toxic
- Powerful, versatile

The ZGEN-36 Model Auto

The ZGEN-36 Model Auto is a stand-alone, on-site generator optimized to produce hypochlorous acid with an adjustable pH. Using technology the system converts salt, vinegar, water and electricity into an effective and powerful solution that can substitute for a number of conventional chemicals used on a daily basis. This translates to a strong supply chain and savings over time. Keeping your business operating smoothly is easy with a ZGEN auto.

Uses

- Bacteria inactivation
- Virus inactivation
- Cleaning food surface preparation areas
- Tile floor cleaning
- Any situation where sodium hypochlorite or calcium hypochlorite have traditionally been used.
